Work hard, play hard!

Qtek 8500

Lightweight and ultra slim, this clamshell smartphone offers a comprehensive range of office functions and incorporates a high quality camera and personal music player that allow you to take full advantage of any free time.

This stylish, but hard working mobile places you firmly in control with high speed Internet surfing and data downloads linked through the latest connectivity technologies like Quad-Band EDGE and Bluetooth®. Dedicated music buttons ensure that you have an easy to use personal soundtrack always within reach.

A unique combination of power, size and flexibility delivers the synergy of desktop computing with a mobile phone. Now you can choose whether to work or play.
